

Reinforced interfaces for better durability

This image shows a close-up of an olive green fabric, likely a military-style uniform. It features a reinforced interface, which is a horizontal strip of fabric with visible stitching. A red circle highlights a specific point of reinforcement on the right side of the image. The fabric has a fine, woven texture and the stitching is done in a light green thread.

Professional sewing - fine lines - exquisite edges - beautiful and firm

Self-adhesive velcro
Easy to remove and wash
Velcro design for strong adhesion
Easier to remove and wash
